TERMS & CONDITIONS

Cattle sell per the terms & conditions of the Hainy Farms. Announcements from the Auction Block on Sale Day regarding the cattle selling in this sale will take precedence over the information printed in this catalog.

No cattle will be loaded until paid for. Terms are cash, check with proper ID (i.e. Driver's license) or Master Card/Visa will be accepted with a 3% fee. For example, if you are the successful bidder at \$1,000 and you charge your purchase using your credit card. Your credit card statement will show a payment of \$1,030.

This auction is a live online auction, via bid online at CCI.LIVE. If you can't see the cattle, contact one of the owners, or consultants for information about the offering.

Please note that our sale will start on time and will move quickly, so be prepared to make your bids promptly. If you need help with CCI.LIVE please call 405-400-9505.

RISK

All animals are the owner's risk prior to their sale and become the property of the purchaser as soon as declared "sold" by the auctioneer (but will be cared for at the purchaser's risk for a reasonable length of time).

PAYMENT

Terms of payment are cash, good check or credit card. No cattle will be loaded until approved by Hainy Farms. Please make payment within 14 days of the sale, any bills past 30 days will be subject to a 3% service charge. Cattle must be paid for before they leave. Cattle must be loaded within 14 days or have other arrangements made with Hainy Farms or Sale Management. We will be working with the Dakota Classic and First Class sale for trucking as well.

TRUCKING

We will assist you in finding the most reasonable trucking options possible. We will work with the Dakota Classic and First Class sale, for shipping cattle. Tobin Trucking 605.770.8474 or 605.770.2808

INSURANCE

Jamie Krieger 812-208-0956

HERD HEALTH, PREGNANCY & BREEDING INFO

All females are sold under the condition "safe in calf" and sell with no further guarantee.

All cows have been run out on pasture, due to dry conditions have been supplemented with a silage and hay ration, and mineral Health papers for interstate travel will be available. Bred females have been pregnancy checked safe. Updated breeding information will be available on a supplement sheet sale day, this sheet will take precedence over statements in the sale catalog.

ULTRASOUND

The ultra sounding was done by Tyler Grussing of Dakota Repro LLC. The heifers were ultra sounded on September 6th 2022. The cows were ultra sounded on September, 30 2022. They will be armed the week of the sale to insure they are safe in calf, if any changes arise, it will be noted on the sale supplement sheet.

What dreams are made of!

Welcome...

Welcome to the Hainy Farms spring calving herd dispersal and thank you for your interest in our program.

Cows have always been what drives me to get up and get going in the morning. Time has caught up with Pam and me. We would like to travel more and spend more time with family. The decision to part with our spring cows has not been an easy one, but knowing this is a great opportunity for our customers and friends to have a part of our genetics is comforting.

Our farm was established in 1888, and we implemented Aling in 1971. We started flushing cows in the early 2000's. Therefore, a number of the females in this sale are from embryos we had in our tanks.

Our purpose was to raise easy fleshing cows with lots of middle and flank with eye appeal. The Duff, Schaefer, Jauer, Griswold, and Olhde herds helped us reach those goals. They were fertile, good uddered and still were attractive to look at.

Back when we decided to quit raising show calves our emphasis changed to raising maternal females for show calf production.

This group of cows has been bred for club calves for the first time ever. We are very confident these cows will do a great job for their new owners. None of the cows in this sale have been flushed.

Special thanks goes out to Lacey, with Lacey Caffee

LLC, for all her help and to the sale staff. We want to thank you, our friends and customers, who have supported our program in the past and this spring cow herd dispersal. Thank you!

Last but not least, we want to thank our own family for helping with chasing, working, heat detecting, Aling, calving, and chasing our dream, even through a corn field. We couldn't have done it without you.

It has been one heck of a ride.
Rog and Pam

Dear Fellow Cattlemen,

It's an absolute honor to work with the Hainy family on this dispersion sale. Being life long family friends and working with them on past Dakota Classic sales, it's a privilege to bring to you the last set of cattle ever offered.

Opportunities don't come around like this very often. Most of these cows wouldn't be for sale if the Hainy family wasn't hanging up the hat with the cattle. A farm established in 1888, and passed down from generation to generation, Roger Hainy is one of the best cattlemen in the country.

Back when Wessington Springs, SD was the first and only club calf capital of the world, Rog was one of the first 10 breeders that formed, with "The Map" in the Livestock Exhibitor and Show Circuit, to have steer sales and moved into the fall for the first pasture bid offs ever offered. It's amazing to think back in the early 90's, Hainy Farms selling winning show steers including the Iowa State Fair and Indiana State Fair in 2002.

Hainy Farms then progressed into targeting more maternal in the 2000's, starting the Dakota Classic with Vanhove Cattle Company and Swanson Cattle Company. Selling some of the best females in the country, in one location, sending them all over the United States.

Rog and Pam decided to slow down around 2015, in turn sold 300+ head to Rob and Sheryl Vanhove. Thus continuing on the Hainy Legacy, still in the true Dakota Classic fashion, Hainy genetics are still offered today, going back to the yellow tag cows, with the year letter in their tattoo. You may not know Roger or Nathan Hainy, but you know the cattle.

As we all know, passion runs deep in true cattlemen, and Rog and his son Nathan weren't quite ready to completely hang up their hats with the cattle, so they started rebuilding. Purchasing cattle from reputable breeders, and putting in past embryos from high end donors, some time tested genetics started this modern, young aged herd we bring you.

RRiding in the combine with Rog, discussing these cows, it was easy to see the true passion that lies

in the program. I carry the same passion in selling these cows, and have taken the time, and the best possible steps to represent the hard work of Rog, Nathan and their families. It was a pleasure to work with the Hainy family, and Stephanie Steck creating this dream book.

Please call with any questions, I would love to help establish the Hainy Legacy in your herd.

CARNEY MAN

DAM
G713 TRAVELER 6807 X PISTOL PETE

BREEDING INFO \ AI DATE 6/30 - HERE I AM \ PE DATE 7/2-9/1 - WYATT EARP \ LIKELY AI BRED

This cow represents our time tested genetics, in the young package we all dream of. This chromed up cow is an own daughter of G713, our 6807 donor. The value of these time tested genetics is shown, when a 20 year old pedigree looks amazing in a four year old form. The dollars this cow has the potential to generate is endless with G713 stacked in her pedigree. Back when we were selling club calves, G713 had a number of high selling calves. Including Patton daughters in the Dakota Classic, for \$18,000 and \$7,000 and a WMW for \$7,500. A nostalgic cow, destined for Here I Am, and greatness.

Imagine this bred heifer as a mature cow looking like her dam, lot 25. Going back to the famous Irish Whiskey and 193 Jauer genetics, consistency will be built in. The style and look Virgil gives is second to none. Her May We all calf is sure to be a stud, just look at how fantastic these May We All daughters look as mature cows!

Wow and another Virgil x Irish Whiskey that's a sure stand out, that pedigree flat works. We love them for their extension and throw in the 193 cow for good measure. It really doesn't get any better, these young cows are ready to work!

WYATT EARP // PICTURED AS A CALF

Wyatt Earp was our pick in the Caffee Ranch 2020 bull sale. We loved his power and neck extension, and yet so much bone and moves so well. We believe in cow families and the A28 cow has had several great Maternal Made heifers in their fall program. The W28 has had one of their high selling steers so has the T28 cow. Consistency is key and we have always believed that! He prefers to be out with his girls then in a pen by himself.

PE DATE 6/4-8/1 - SONNY \\
LIKELY AI BRED

A Caffee Ranch bred heifer, the Rodman cows always added the extra extension of the next and made a big splash for Caffees. Her dam has produced two Maternal Made bulls in their sales, along with several heifers I've bid on over the years. This ones' look with being a big bodied and so sound makes her very attractive. We all know Brokers make fantastic cows, especially backed a great cow family like this.

With all the popular crossbred bulls available, we feel using straight Angus, from the top breeders in the nation, improves consistency. We expect our Angus cows to be big middled, moderate, sound, and have eye appeal. The T751 and 610 cows are perfect examples of the Angus cows producing great ones. Those two cows have totaled over \$350,000 in sales!

Look at these cows to use as base cows for your herd,
like we have been doing.

We love the look and extra dimension this Angus cow provides. The perfect base cow to add in some Maine to create those Maine-Angus everyone is after!

Another Stunner. Incredible volume and mass in this cow. She is also extremely docile. She has a very outstanding daughter in our replacement heifer pen. A really good cow that anyone would be proud to own.
